Question and Answer
The Answer is on end
Page Prepared by
"Namoo" Thanks.

- The purpose of answer on put end of Page
- First test your self after that Compare your result with True Answer.
- This question is only 91 and the answer is follow this question.

1. Identify the wrong claim about strategies,

- a. Strategies need to examine set of trends
- b. Strategy should not present inconsistency to goals and policies
- c. Strategies create new value but not competitive advantage
- d. Strategies should not require too much resources

2. Bargaining power of suppliers decrease when,

- a. Buyers switching costs are high
- b. Suppliers' products create high switching costs
- c. Buyers are large and suppliers are few in number
- d. Suppliers hold uniquely critical material for the buyer

3. Which one indicates the blueprint or planning stage of the strategic management process?

- a. Strategy implementation
- b. Feedback stage
- c. Strategy evaluation
- d. Strategy formulation

4. A manufacturer of screws has noticed that on an average two percent of the screws produced are defective. A random sample of 400 screws is examined for the proportion of defective screws. Find the probability that the proportion of defective screws in the sample is between 0.01 and 0.03

- | | |
|-----------|-----------|
| a. 0.4236 | c. 0.4826 |
| b. 0.7611 | d. 0.8472 |

5. Which process strategy Yes natural spring water producing company apply?

- a. Product focused
- b. Repetitive
- c. Process focused
- d. Mass Customization

6. Goodness-of-fit tests differ from Independence tests in terms of,

- a. The method used to compute expected frequencies
- b. The rule for determining the number of degrees of freedom
- c. A and B
- d. None

7. Which one of the following is different from others?

- a. Interview
- b. Observation
- c. Time series
- d. Questionnaire

8. In which of the leadership style is the leader making all of the decision and followers are simply follow simply there to execute without deviating from the decision?

- a. Autocratic style
- b. Transformational style
- c. Free-regin style

- a. Political power
- b. Expert and referent power
- c. Coercive power
- d. Reward and legitimate power

15. _____ is defined as the number of years required to recover the funds invested in a project from its operating cash flows

- a. internal Rate of Return
- b. Net Present Value
- c. Profitability index
- d. Payback Period

16. Which one of the following is false about a dual simplex?

- a. The dual of the dual is the dual itself
- b. The dual provides useful economic information
- c. The term "dual" implies two or double
- d. It gives information on the worth of resources

17. What is the most important consideration in retail layout?

- a. Improved information flow
- b. Higher utilization of space
- c. Maximizing exposure
- d. Improved employee morale

18. Based on the principles of Henry Fayol, an effective organizing function depends on the mastery of the following except:

- a. Span or control
- b. Chain of command
- c. Budget allocation
- d. Work specialization

19. A legal form of business having unlimited liability and run by two or more individual who have pooled resources is?

- a. Sole proprietorship
- b. Partnership
- c. Joint venter
- d. Corporation

20. Identify the incorrect statement,

- a. A poor strategy formulation results in a failure if poorly implemented
- b. A poorly formulated strategy might be implemented successfully
- c. A good strategy formulation can result in a good implementation
- d. A good strategy formulation necessarily leads to successful implementation

21. When information is extracted, filtered or formatted in some way, the output is...

- a. Confidence
- b. Intelligence
- c. Commitment
- d. Knowledge

22. An inspiring, long-term "dream" about what the organization will achieve in the future is referred as

- a. Mission
- b. Objective
- c. Vision
- d. Goal

23. Which of the following is the definition of management?

- a. It is the art of getting things done through the efforts of other people
- b. It is the process of deciding who in the organization will perform what tasks

27. Which one of the following is a correct claim?

- a. Resistance is a pandemic phenomenon
- b. Resistance to change is a red-flag
- c. Resistance is not always necessarily bad
- d. Resistance is always an undesirable human response

28. Suppose there are 500 students selected for interview from three university as indicated in the following table

	Male	Female	Total
Arba Minch	90	60	150
Addis Ababa	100	70	170
Jimma	90	90	180
Total	280	220	500

What is the probability that the students chosen is female given that Jimma university are chosen?

- a. 0.18
- b. 0.36
- c. 0.50
- d. 0.25

29. Which of the following is not possible function of organizational culture?

- a. Boundary-defining role
- b. Enhances the stability of the social system
- c. Magnifies differences
- d. Shapes attitudes and behavior of employees

30. If a project is seen to be feasible from the results of the feasibility study, the next logical step is

- a. To divert the project idea and find another viable idea
- b. To proceed with the idea to which the feasibility study in conducted
- c. To report to the government and get approval for the new project idea generation
- d. All of the above

31. The initial stage in the entrepreneurial process is:

- a. Identification and refinement of a viable opportunity
- b. The identification and refinement of working capital
- c. The identification and refinement of a viable resources
- d. The identification of skilled labor in the labor market

32. In order to provide past, present and prediction information that are accessible to manager, management information system can include all of the following except:

- a. Software that helps in decision making
- b. Data resource such as data base
- c. The hardware resources of a system
- d. None of the above

33. One is incorrect about the difference between a leader and a manager,

- a. A manager relies on control whereas leader inspire trust.
- b. Unlike managers, leaders are followed because of their personality.
- c. A leader focuses on maintaining a status quo whereas manager challenges it
- d. A leader invents or innovates while managers imitate.

34. Which cost of quality has a significant strategic implication?

- a. Internal failure cost
- b. Prevention cost
- c. Appraisal cost
- d. External failure cost

35. Which one of the following is a non-probability sampling technique?

- a. Judgmental sampling
- b. Cluster sampling
- c. Stratified sampling
- d. Systematic sampling

36. Which one of the following is not among the definition of marketing?

- a. It is a combined effort of decision making in a company setup so as to get things done.
- b. It is a societal and managerial process by which individuals and organizations obtain what they need and want through creating and exchanging values with others.

37. Withdrawal behavior is commonly manifested in the form of,

- a. Punctuality
- b. Turnover
- c. Motivation
- d. Engagement

38. Appropriateness of a structure depends on the following contingency variables except.

- a. Goals and tasks
- b. Ethnicity
- c. Size
- d. Technology

39. If the product that the firm has introduced in international market requires a lot of training, installation and support, the appropriate marketing channel suggested is:

- a. Domestic distributor
- b. Indirect marketing channel
- c. Direct marketing channel
- d. Manufacturing agents

40. A kind of product the consumer either does not know about or knows about but does not normally consider buying is:

- a. Convenience Product
- b. Unsought Product
- c. Specialty Product
- d. Shopping Product

41. Work related attitude describing how one is predisposed to act is.

- a. Behavioral component
- b. Cognitive component
- c. Evaluative component
- d. None

Strategy	State of Nature		
	S1	S2	S3
	P1= 0.3	P2= 0.4	P3= 0.3
S1	700,000	300,000	150,000
S2	500,000	450,000	0
S3	300,000	300,000	300,000

42. Using optimistic criteria, which alternative the decision makers select?

- a. S1
- b. S2
- c. S3
- d. None

43. Which one of the following is not true about financial management?

- a. Deals with management of capital sources
- b. One of the important functions of a firm
- c. Deals with material resources of the firm
- d. Concerned with maximization of economic value

44. In tossing a fair 5-cent coin three times, what is the probability of achieving at least one head in the three tosses

- a. 7/8
- b. 2/3
- c. 2/9
- d. 1/3

45. The internal analysis involves all of the following except,

- a. Analyzing the organization's value creation process
- b. Analyzing functional areas of the organization
- c. Identifying resources, capabilities, and core competencies

46. Who are mostly responsible for creating a corporate level strategy?

- a. Lower level managers
- b. Employees at the shop level
- c. Middle level managers
- d. Chief executive officers

	A	B	C
1	40	20	0
2	0	10	30
3	0	30	10

- 47. Using the above table determine the optimal assignment.**
- a. 1-C, 2-B, 3-A
 - b. 1-B, 2-A, 3-C
 - c. 1-C, 2-C, 3-B
 - d. 1-C, 2-A, 3-A

48. Identify the incorrect statement about conflict in organizations,

- a. Conflict is an opposition between two or more parties
- b. Conflict is always dysfunctional
- c. Conflict arises from incompatible goals
- d. Conflict involves opposing interests

B

49. Which one is a type of informal groups?

- a. Command group
- b. Task group
- c. Interest group
- d. Ad hoc committee

50. Which one of the following is capacity option for aggregate planning?

- a. Changing inventory levels
- b. Varying production rates
- c. Back ordering
- d. Varying workforce size

51. The first step in conducting human resource development interventions is,

- a. Evaluation
- b. Design
- c. Implementation
- d. Need assessment

52. The degree to which a job entails a variety a of different activities demanding the use of number of skills and talents by the job holder relates to;

- a. Task Significance
- b. Task Identity
- c. Skill Variety
- d. Autonomy

		0	1	0	15/41	8/41	10/41	50/41
		0	0	1	6/41	5/41	4/41	62/41
		1	0	0	2/41	12/41	15/41	89/41
	Zj							
	Cj-Zj							

64. Identify basic variable

- a. X1,S2,X2
- b. X2,X3,S1
- c. X2,X3,X1
- d. X1,X2,X3

65. When a company decide to enter a foreign market using product produced for domestic market to domestic market with out any change, the product strategy the company prefer is

- a. Straight production extension
- b. Communication adaption
- c. Product adaption
- d. Product invention

66. The new product development process starts with

- a. Implementation
- b. Diffusion
- c. Search for ideas
- d. Incubation

67. One of the following techniques use the opinions (judgment) of supervisor, department manager, or experts in forecasting the man power requirement

- a. Markov analysis
- b. Management forecasting
- c. Trend analysis
- d. Zero based forecasting

68. Which of the following is correct about foreign market entry strategies?

- a. Joint venturing differs from the direct investment because association is not formed with some one in the foreign country.
- b. Joining in the foreign companies to produce or market products or service is direct exporting
- c. Joint venturing differs from exporting in that the company joins with a host country partners to sell or market abroad
- d. Two companies working in same country can make associations to work in their parent country as a foreign firm

69. Rejecting H₀ while it is true is called.

- a. Type II error
- b. Type I error
- c. Correct conclusion
- d. A and C

70. As an entrepreneur, you must identify the target customers for your product. Which of the following is not possibly your customer?

- a. People who are buying from you now
- b. People you hope will buy from you in the future
- c. People who stopped buying from you and ensured never return
- d. People who stopped buying from you but you hope to get them back

71. Which of the following is not the role of the state in labor relations?

- a. Bargains only for employees
- b. Promulgates labor laws
- c. Establishes wage boards
- d. All

72. Research conducted to address a specific business decision for a specific firm or organization is

- a. Basic research
- b. Deductive research
- c. Applied research
- d. Inductive research

73. Facts and figures collected, analyzed, and summarized for presentation and interpretation are

- a. Data
- b. Element
- c. Parameter
- d. Observation

74. Autocratic style of leadership could be appropriate when

- a. Team is highly motivated and skilled
- b. Leader values group discussions and input from team members
- c. Leader encourages team member to function independently
- d. Leader has urgent issues to accomplish

75. Which one of the following is not true about operations research?

- a. Use computer programs
- b. Scientific method
- c. Multi-disciplinary
- d. Intuitive

76. Which one is false about the correlation coefficient?

- a. Values of the correlation coefficient are always between -1 and +1
- b. It measures the strength of linear association between two variables
- c. Values of the correlation coefficient close to zero indicate average relation
- d. A value of 1 indicates strong correlation between variables

77. Which of the following are the three basic types of control?

- a. Feed forward, in-process, and diagnostic
- b. Prevention, feedback, and feed forward
- c. Prevention, diagnostic, and therapeutic
- d. Feed forward, concurrent, and feedback

78. The statement that justify the primary purpose of the organization and why the organization exist is

- a. Strategic Plan
- b. Mission of the organization
- c. Operational plan
- d. Vision of the organization

79. Identity the incorrect statement about strategy evaluation.

- a. Not necessary for strategic changes
- b. Alert management about potential problems
- c. It is vital to an organization's well-being
- d. Helps to correct erroneous strategic decisions

- a. Every project starts with ideas and these ideas are considered as investment opportunities
- b. The project idea stage is the first stage of a project cycle
- c. The idea about a project could arise from a variety of sources
- d. All of the above

81. Which one of the following is not the strategic implication of location decision?

- a. Revenue
- b. Clustering
- c. Operating expense
- d. Innovation and creativity

82. Which one is incorrect about task-oriented leaders?

- a. Focus on structure
- b. Focus on goal attainment
- c. Focus on staff motivation
- d. Focus on procedures

83. As stated by Jeffery Timons (2006) in their model of entrepreneurship to create successful venture, there must be a balance between:

- a. Opportunity, challenge and resource
- b. Opportunity, government and international community
- c. Opportunity, group cycle and resource
- d. Opportunity, team and resources

84. Which of the following is an example of a direct channel?

- a. Producer-retailer consumer
- b. Producer-consumer
- c. Producer-business distributor-business customer
- d. Producer-wholesaler-retailer-consumer

85. Which one of the following precede the others in research process?

- a. Collecting the data
 - b. Planning a Research designs
 - c. Defining the research objectives
 - d. Planning a sample
-

86. To restrain the entry of unwanted goods, countries usually utilize all or some of the following except,

- a. Motivational barriers
- b. Exchange barriers
- c. Legal barriers
- d. Psychological barriers

87. Distinguish the situation when the classical management theory was developed?

- a. Obvious problems related to the factory system were recurring
- b. Managers were unsure of how to train their employees
- c. Agricultural societies were not transformed into industrial societies

Answer of all Question
SAMARA UNIVERSITY

By Namoo

If you Required Solution
workout Question 28

Conditional Probability

$$P(A|B) = \frac{P(A \cap B)}{P(B)}$$

	Male	Female	Total
Arba	90	60	150
Addis	100	70	170
Jimma	90	90	180
Total	280	220	500

$P(F|T) = \frac{P(F \cap T)}{P(T)}$
 $P(F|T) = \frac{220}{500} = 0.44$
 $P(F|T) = \frac{90}{220} = 0.409$
 $P(F|T) = \frac{90}{220} = 0.409$

What is the probability that the students chosen is female given that Jimma university are chosen?

C

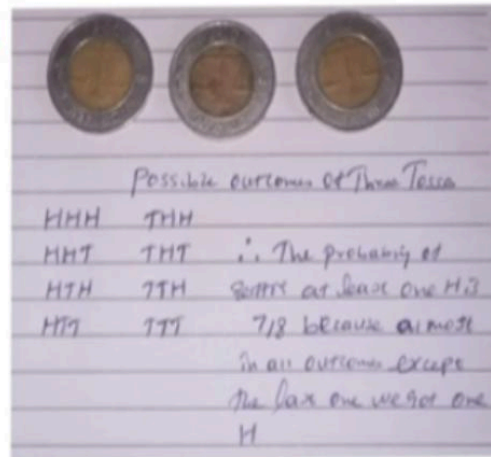

Arba Minch	90	60	150
Addis Ababa	100	70	170
Jimma	90	90	180
Total	280	220	500

- 0.18
- 0.36
- 0.50
- 0.25

44. In tossing a fair 5-cent coin three times, what is the probability of achieving at least one head in the three tosses

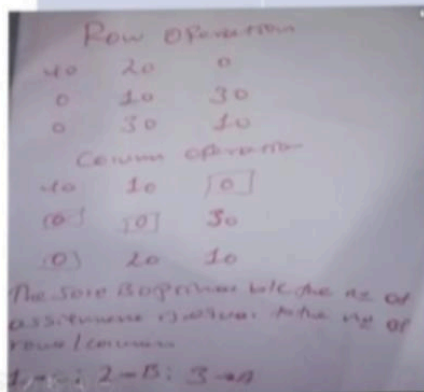

- a. $7/8$
- b. $2/3$
- c. $2/9$
- d. $1/3$

A
